About Me

Passionate self-taught Front-End Web Developer with over 1 year of experience in crafting websites & web applications that are responsive, functional, aesthetic and accessible.

Professional Experience

Augray Pvt Ltd , Chennai

Jr Front-End Developer   Nov 2021 – Oct 2022

Key responsibilities:
- Worked closely with Interface Designers and Product Manager in understanding the product flow and converting their design visions into functional & responsive web applications.
- Building Single Page User Interfaces with reusable UI components using react concepts like JSX, props, class components, functional components, hooks, react-routers etc.
- Developed CMS (Content Management Systems)/Admin panel for renowned companies like GMMCO, LG, Spartan, Idex and worked on company's internal products using React framework.
- To resolve bugs assigned by QA and update bug status on JIRA(Bug tracking application).

Front-End Developer Intern   Aug 2021 – Nov 2021

Key responsibilities:
- To add, modify and update content in the Company's Official Website.
- Collaborated and worked in Front End UI modules
- To resolve UI Bugs in existing projects.

Achievements

- Improved accuracy rate in terms of resemblance between XD design and developed UI application resulted in increased client satisfaction.
- Reduced QA testing timelines as a result of self-testing(double checking) & resolving bugs from a user point of view during development.
