PROFILE

As a Front-End Engineer with 3 years of experience, I specialize in creating clean, user-friendly web applications that are both functional and visually appealing. I'm passionate about transforming ideas into seamless digital experiences, with a focus on simplicity, performance, and accessibility.

My approach is driven by a strong belief in collaboration and the value of building products that solve real-world problems. I take pride in developing solutions that are not only efficient but also user-centric, ensuring the best experience for every user.

WORK EXPERIENCE

Paperflite   Apr 2023 - Dec 2024
Front End Engineer

- Contributed to the development and maintenance of the Cleverstory platform, a web-based tool enabling businesses to create, personalize, and customize web pages using pre-built widgets such as text, forms, carousels, cards etc on their own, with no coding required.
- Worked in agile sprints with the team to enhance platform scalability and usability, implementing new features and optimizing existing ones to improve performance and user experience.
- Managed customer tickets, troubleshooting front-end issues and delivering timely solutions to improve user experience and retention.

Augray Private Limited   Nov 2021 - Oct 2022
Junior Front End Developer

- Developed websites and CMS/admin panels for clients such as GMMCO, Idex, LG, Ashok Leyland, and Spartex using React, focusing on user-friendly interfaces and seamless functionality.
- Assisted in the maintenance and enhancement of existing applications, troubleshooting issues, and implementing improvements to ensure smooth operations for clients.

Augray Private Limited   August 2021 - Nov 2021
Intern - Front End Developer

- Maintained and updated the company website, managing content additions and edits to ensure it stayed current and relevant.
- Assisted senior developers in smaller tasks on various products, gaining exposure to web development workflows.
